INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Fairfield County Foundation and Subsidiaries
Lancaster, Ohio

We have audited the accompanying consolidated financial statements of Fairfield County Foundation (a nonprofit organization) and Subsidiaries, which comprise the statements of financial position as of December 31, 2012 and 2011, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fairfield County Foundation and Subsidiaries as of December 31, 2012 and 2011, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to the Consolidated Financial Statements

NOTE A - NATURE OF ACTIVITIES AND BASIS OF CONSOLIDATION

The Fairfield County Foundation (the "Foundation") was founded as a non-profit community foundation on April 20, 1989, for the purpose of the encouragement and promotion of charitable giving within Fairfield County, Ohio; to provide a means for prudent investment and the administration of gifts, bequests and devises made for charitable, educational and public purposes; and to provide for distribution of funds in such a manner as to permit the benefits of the trust to continue to meet the needs of Fairfield County, Ohio, as such needs may change with time and circumstances.

The Foundation is the sole member of the Fairfield Foundation Real Estate LTD and Fairfield Foundation Real Estate II LTD Companies (Ohio Limited Liability Companies). The accompanying consolidated financial statements include the accounts of the Fairfield County Foundation and its Subsidiaries. The Subsidiaries were organized to solely engage in the business activities upon which the sole member agrees.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Financial Statement Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. The Foundation presents its financial position and activities based on the existence or absence of donor-imposed restrictions. If donor-imposed restrictions are met in the same period as the gift or investment income is received, the amount is reported as unrestricted revenues. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted net assets—Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets—Net assets that are available for use, but expendable only for those purposes specified by the grantor.

Permanently restricted net assets—Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation.

The Bylaws of the Foundation include a Variance Provision and Powers of Modification giving the Board of Directors the power to vary the use of funds if a restriction expressed by the donor would result in use contrary to the intent presumed, becomes unnecessary, incapable of fulfillment, or inconsistent with its charitable and educational mission or the need of its constituents. Based on these provisions, most contributions received by the Foundation are reported as unrestricted support, except for pledges and bequests that have not yet been received or settled and the net assets held under charitable trust and gift annuity agreements, which are classified as temporarily restricted net assets. The Foundation has no assets that are permanently restricted.

Grants and expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets. Expirations of temporary restricted on net assets (i.e., the stipulation time period has elapsed or purpose was satisfied) are reported as net assets released from restrictions.

Cash and cash equivalents

For the purpose of these financial statements, cash and cash equivalents include all highly liquid debt instruments with original maturities of three months or less.

Investments

Investments including certificates of deposit, corporate and governmental obligations, equities and partnerships and mutual funds are stated at fair value based on quoted market values. Investments in cash management funds are stated at cost, which approximates fair value. Net realized and unrealized gains and losses on investments are reflected in the statement of activities.

Marketable Securities consist of bonds which are classified as held-to-maturity and common stock which are classified as available for sale. Securities classified as available for sale are those that the Foundation intends to hold for an indefinite period of time while securities are classified as held-to-maturity when the Foundation has the positive intent and ability to hold the securities to maturity.

See independent auditors' report.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value of Financial Instruments

Investments in common stock, government and corporate bonds, mutual funds and equivalents cash management funds are recorded at fair values. The carrying amount of cash and cash equivalents, accrued expenses, and line of credit approximates fair value due to its short term nature. Funds held for other organizations and funds held as agency endowments are recorded at the fair values of the corresponding assets. Gift annuity liabilities are carried at the present value of the total future payments to annuitants and approximate fair value because the annuity was established in the current year using a market rate.

Fixed Assets

Purchased fixed assets are recorded at cost. Donated fixed assets and collectibles are recorded at estimated fair market value at the date of donation. Expenditures for replacements are capitalized, and the replaced items are retired. Depreciation is computed over the estimated useful lives of the related assets using the straight-line method.

Building	40 years
Building addition	40 years
Office furniture and equipment	3 - 10 years

Revenue Recognition

Contributions are recorded when received as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Administrative Fees

For operating purposes, fees are charged to the funds in accordance with agreements reached between the Foundation and the respective funds as established by donors and other organizations. These fees are recorded as revenue by the Foundation.

Functional Expenses

The costs of providing the various programs and activities have been summarized on a functional basis in the consolidated statements of activities. Expenses are charged to respective program and supporting services based on direct expenditures incurred. Indirect expenses have been allocated based on analysis of utilization for the related activity.

Advertising Costs

Advertising costs are expensed as incurred and totaled \$28,878 and \$25,530 for the years ended December 31, 2012 and 2011.

Income Taxes

The Foundation is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for federal or state income taxes is reflected in the accompanying financial statement.

The Foundation adopted accounting rules that prescribe when to recognize and how to measure the financial effects, if any, of income tax positions taken or expected to be taken on its income tax returns, including the position that the Foundation continues to qualify to be treated as not-for-profit organization exempt from income tax provisions. Management is required to evaluate the likelihood that, upon examination by relevant taxing jurisdictions, those income tax positions would be sustained.

Based on that evaluation, if it were more than 50% probable that a material amount of income tax would be imposed at the entity level upon examination by the relevant taxing authorities, a liability would be recognized in the accompanying balance sheet along with any interest and penalties that would result from that assessment. Should any such penalties and interest be incurred, the Foundation's policy would be to recognize them as operating expenses. Based on the results of management's evaluation, a liability was not recognized in the Foundation's financial statements. Further, no interest or penalties have been accrued or charged to expense as of December 31, 2012 and 2011, or for the years then ended.

See independent auditors' report.

FAIRFIELD COUNTY FOUNDATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued)

The Foundation's informational return is subject to examination by taxing authorities for a period of three years from the date they are filed. The open years for the filed returns are 2009 – 2011 and the return to be filed in 2013 is the 2012 informational return.

Fairfield Foundation Real Estate LTD and Fairfield Foundation Real Estate II LTD Companies are considered disregarded entities for tax purposes.

Credit Risk

Financial instruments which potentially subject the Foundation to a concentration of credit risk consist principally of cash and investments. The Foundation has significant amounts of cash equivalents that are not federally insured, however the Foundation places cash and temporary overnight investments with high credit quality financial institutions. The Foundation's investments are managed by independent asset management firms whose performance is reviewed by the Investment Committee of the Board of Directors on a periodic basis.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Foundation invests or holds a variety of investment vehicles, including certificates of deposit, corporate and governmental obligations, equities and partnerships and mutual funds. These investments are exposed to interest rate, market, credit and other risks depending upon the nature of the investment. Accordingly, it is reasonably possible that these factors will result in changes in the value of the Foundation's investments, which could materially affect amounts reported in the financial statements.

NOTE E – FAIR VALUE MEASUREMENT

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to the Consolidated Financial Statements

NOTE E – FAIR VALUE MEASUREMENT (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks, equities, corporate bonds and notes, U.S. government securities, and partnerships: Valued at the closing price reported on the active market on which the individual securities are traded.

Closely held equities: Valued, using the market approach, at the most recent trade, or book value provided by the issuer, or an alternative pricing source.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Charitable lead trust: Valued and adjusted each year to the present value (income approach) of future cash flows, discounted at 5.4%, for the remaining period of the trust for 20 years beginning in 1998.

Liability under gifts: Valued and adjusted each year to the present value (income approach) of future cash flows, discounted at 5.4%, expected to be paid.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Foundation's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2012 and 2011.

NOTE F - CONTRIBUTION RECEIVABLE - CHARITABLE LEAD TRUST

During 1998, a donor established a trust naming the Foundation as the lead beneficiary of a charitable lead unitrust ("lead trust"). Under the terms of the trust, the Foundation is to receive eight percent (8%) of the net fair market value of the trust assets, determined on the first business day of each year. Payments shall commence in the year of the donors' deaths and continue for twenty years. Upon expiration of the trust term, the lead trust shall terminate, and the trustee shall distribute all property constituting the lead trust, including all received or accrued but undistributed income, other than amounts due the Foundation, in equal shares to the donor's grandchildren or the survivors of them. At the date of donors' death in 1998, the value of the future benefits expected to be received by the Foundation was estimated to be \$528,125, which was recorded as a contribution and as a charitable lead trust receivable which is adjusted each year to the present value of future cash flows, discounted at 5.4%, for the remaining period of the trust.
